BAZIS Construction LLP has finished a general reconstruction of a new building of the UN

BAZIS Construction LLP has finished a general reconstruction of a new building of the UN in Almaty in record-breaking short time (4 months) and dedicated an opening ceremony to International day of the United Nations (the UN) that is celebrated on 24 October 2018.

The early earthquake warning system was installed in the old building. Now they have changed the system to the new building.
