Dear Mr. Przybylak,

We are happy to confirm that your company's advanced early earthquake warning system "Secty lifePatron", which is installed at Hilton Istanbul is functioning to its full capacity without any false alarm.

At present threshold releasing the alarm is placed on "02".

Our team members are instructed on how to act in the event of an earthquake and are trained in behavioural patterns at regular intervals to cope with any emergency situation arising from life-threatening earthquake.

Yours sincerely

Sascha Koehler
Hotel Manager
